trust

**Affordable homes.
Exceptional care.**

Get online with Trust Wi-Fi

This development has a Wi-Fi network which is available for customers and their families, visitors using the guest rooms and Trust colleagues.

There is no additional charge for using the Wi-Fi. Trust staff are keen to help all customers to get online. Ask your local staff for information about training and support.

Trust has installed a wireless network in this development called Trust Wi-Fi. When you first connect to the wireless network you will be taken to a screen where you can enter the voucher code (password) provided. By entering the voucher code, you agree to the terms and conditions shown on the screen.

If you don't see the password screen when trying to enter the voucher code, it may be due to other internet pages which are already open on your device - please close all internet pages, then try again. If you can't connect, call Social Telecoms on 0131 600 0115 during office hours.

For security, your Trust Wi-Fi voucher code (password) should not be shared with other customers or staff. We currently have no lower age limit for using the Wi-Fi so access to some sites may not be possible on our wireless network.

If you require any further information or guidance please contact local staff or call 0131 444 1200. Call this number to get this information in a different format.
